

## FAQ

### ***Why GradeCam?***

Because GradeCam is advanced image recognition software and involves no moving parts, it is more reliable and costs a fraction of the price of old scanning technology. GradeCam's affordability means it can be used where data-driven decisions have the most impact on learning--the classroom. With GradeCam in the classroom, the amount of feedback available to teachers and students increases dramatically, and it is the most significant form of feedback---immediate. In addition, GradeCam automates entering scores into any electronic grade book, saving teachers from hours of tedious data entry and greatly reducing the work required to keep one current.

### ***Can I reproduce GradeCam score form labels and test forms?***

Yes. You can make as many copies as you need. In fact, your GradeCam software includes a form generator feature that allows you to create and print your own forms. Choose from three to nine digits for student IDs and test forms with up to 20, 40, 70, or 100 questions. GradeCam even lets you generate forms with student IDs already bubbled.

### ***Will GradeCam work with our electronic grade book?***

GradeCam works with the vast majority of electronic grade books including all web-based grade books. If your cursor moves down instead of sideways when you hit return or tab, GradeCam will work with yours.

### ***Do students need to use special pens to bubble?***

No. Students can use pen or pencil.

### ***What do we get if we purchase a site license?***

A license gives your site unlimited use of the software. GradeCam cameras are sold separately at \$98 each. You may also choose to purchase an annual support contract which includes ongoing technical support (phone and email) and all software and standards upgrades.

### ***What comes with each GradeCam camera purchase?***

- A Quickstart Guide
- 100 20-question test forms
- 100 40-question test forms
- 360 score form labels (For graded papers and credit/no credit work)

Student IDs on the preprinted forms that come with your purchase are four-digit.
